Professional Experience

Senior Frontend Engineer

PeopleOps Cloud, Makati City

March 2022 - Present

- Led development of a multi-tenant HR operations platform used by 12,000+ employees across Southeast Asia.
- Built core employee profile, onboarding, and internal hiring workflows using React, TypeScript, Next.js, and Tailwind CSS.
- Integrated AWS services including S3, CloudFront, and Lambda for secure document delivery and automation.
- Reduced page load time by 38% by optimizing bundle splitting, server rendering, and query patterns.

- Designed reusable UI components and frontend standards adopted by 7 engineers.
- Partnered with HR stakeholders to streamline candidate review and internal mobility features.

Frontend Engineer

Atlas Workforce Systems, Taguig City

June 2019 - February 2022

- Delivered applicant tracking and performance management modules for enterprise clients.
- Migrated legacy pages to TypeScript and improved maintainability of shared frontend patterns.
- Worked closely with backend engineers on API integrations and role-based access experiences.
- Added automated tests for hiring funnel workflows and document upload features.

Software Engineer

Brightpath Digital Solutions, Quezon City

July 2017 - May 2019

- Built responsive business dashboards and workflow tools using React and Node.js.
- Implemented search, filtering, and reporting features for operations and admin teams.

Selected Achievements

- Built an applicant review dashboard that reduced manual shortlisting time by 45%.
- Introduced standardized TypeScript patterns that reduced UI defect rate in quarterly releases.
- Recognized by leadership for translating HR workflow pain points into usable product improvements.

Education

Bachelor of Science in Computer Science

University of the Philippines Diliman

2017

Certifications

- AWS Certified Developer – Associate
- Scrum Fundamentals Certified

Tools and Platforms

- GitHub
- Vercel
- Supabase
- Jira
- Figma
- Postman
- Datadog

Additional Information

- Comfortable presenting technical recommendations to non-technical HR and operations stakeholders.
- Open to hybrid or remote roles.
