## Professional Summary

Product-focused UI Engineer with 4 years of experience building web applications and internal dashboards. Strong in React, JavaScript, CSS, and user interface implementation. Has worked on admin tools, reporting pages, and design system adoption. Limited direct experience with AWS and TypeScript-heavy enterprise stacks, but strong delivery record in fast-paced product teams.

## Core Skills

- React
- JavaScript
- HTML
- CSS
- Tailwind CSS
- UI Implementation
- Figma Handoff
- REST APIs
- Dashboard Development
- QA Collaboration
- Accessibility
- Basic TypeScript

## Professional Experience

### UI Engineer

Northstar SaaS Studio, Cebu City

August 2022 - Present

- Built customer-facing and internal admin pages for a B2B workflow management platform.
- Implemented reusable page templates and form components using React and Tailwind CSS.
- Worked with product and design teams to improve usability of reporting interfaces.
- Helped reduce front-end issue turnaround time by improving component consistency.

### Frontend Developer

Pixel Harbor Labs, Remote

January 2021 - July 2022

- Developed responsive interfaces for small business dashboards and CMS tools.

- Collaborated with backend developers to integrate REST endpoints and submission flows.
- Added minor TypeScript support to shared components during a gradual migration.

## Selected Achievements

- Delivered a dashboard redesign that improved completion rates for internal workflows.
- Helped launch a design system pilot used across 3 product modules.

## Education

Bachelor of Science in Information Technology  
University of San Carlos  
2020

## Tools and Platforms

- GitHub
- Figma
- Trello
- Notion
- Postman

## Additional Information

- Familiar with TypeScript fundamentals but most recent projects were JavaScript-first.
- No direct AWS production ownership; exposure limited to consuming backend services.
- Interested in moving into more structured enterprise application work.
