Test results: Summary

#	Test	Result	Note
T1	Log a request	Fail	Saves with no business purpose (Fix 6)
T2	Upload a receipt	Partly	OCR reads vendor, date, amount; quality check rejects clean receipts (Fix 7)
T3	Can't approve own expense	Pass	Blocked with a message; button still shows
T4	Match a payment	Partly	Manual match works; Payment doesn't update (Fix 5)
T5	Amount difference	Pass	Asks for a reason before sign-off
T6	Card tabs	Partly	Right rows, no totals (11)
T7	Subscriptions	Pass	Run rate, annualised and AI & Cloud match the register
T8	Foreign currency	Partly	FX card shows a count, no amount (10)
T9	Categories	Fail	Spend by category empty (Fix 1)
T10	Month-end report	Pass	Draft, snapshot, CSV work; Mark final paused
T12	Staff payment	Not tested	No open payout to submit to; admin steps need an admin
T13	Rent override	Pass	Override works; pop-up off-screen (16)
T14	Rent overdue	Pass	Colour-coding suggested (12)
T15	Record rent	Pass	
T16	Maintenance with invoice	Pass	Works
T17	Maintenance without invoice	Partly	No totals (11)
T19	Vacant property	Pass	
T20	Rentals kept separate	Pass	

Test details

T1 Log a request FAIL

Logged "TEST – Canva Pro" with Notes blank. It saved and went to the matching queue. It should need a business purpose (Fix 6).

Screenshot: *under Fix 6.*

T2 Upload a receipt PARTLY

#1 The first test receipt (600×820) was rejected for resolution. The minimum may be too high for phone scans.

#2 The 1240×1754 version went through OCR and read vendor, date and amount correctly (Sample Stationery Co, 20/10/2026, $45.60).

#3 Other test receipts with the same layout were rejected as "blurry" (Fix 7).

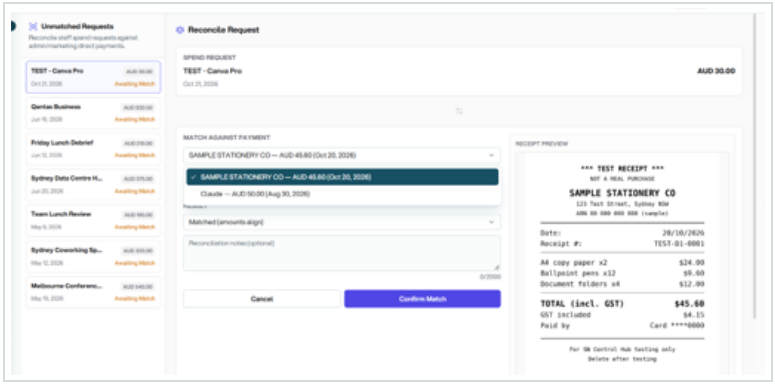

Screenshot: *under Fix 7.*

T3 Can't approve own expense PASS

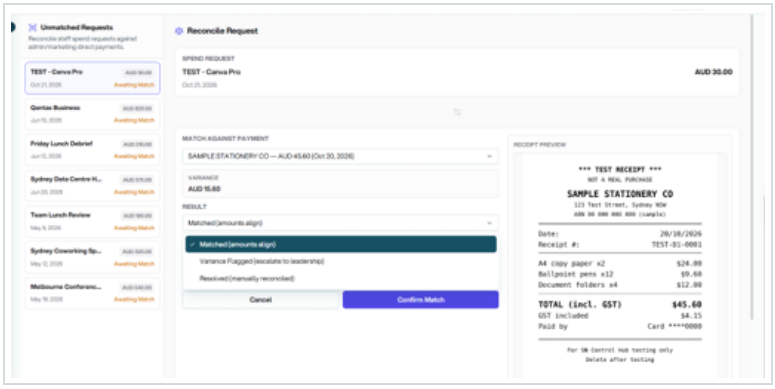

Matching is manual: the result (Matched / Variance flagged / Resolved manually) is picked from a dropdown, there's no auto-match.

The Approve button shows for my own expense, but clicking it is blocked: "This entry is no longer pending, or its submitter cannot approve it." The control works.

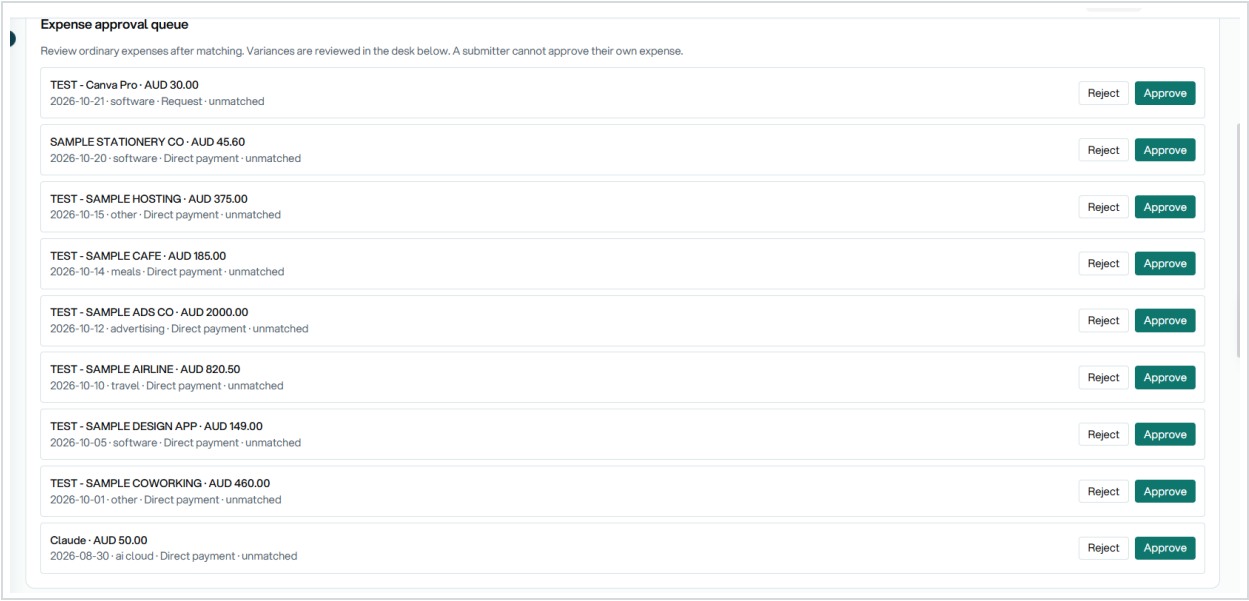

Suggestion: hide or grey out Approve on your own items so it doesn't look clickable (?).

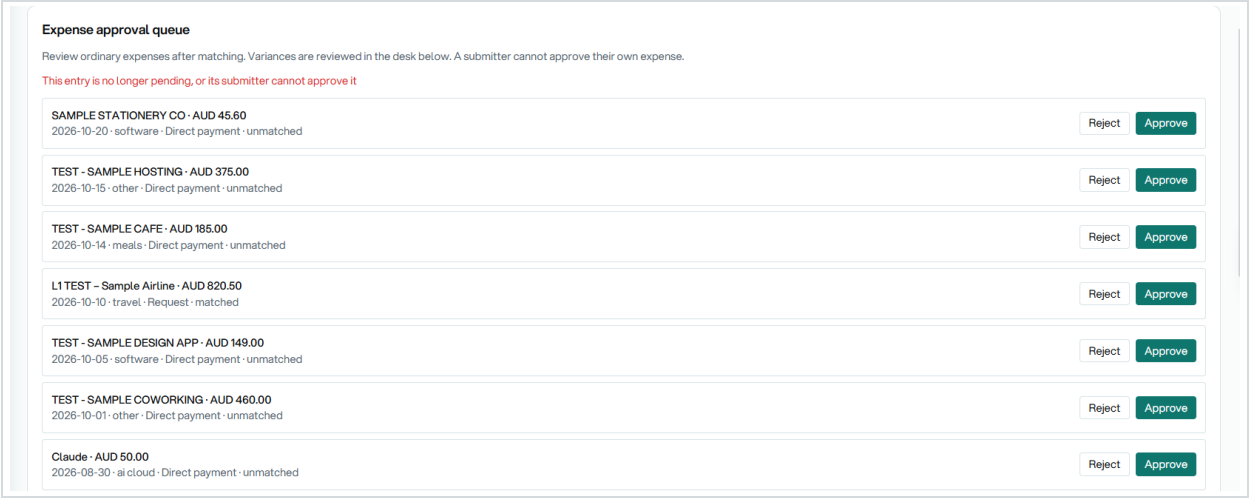

Reconcile Request: choose the payment to match against

Match result is picked by hand from a dropdown

Approve button shows on my own TEST – Canva Pro

After clicking Approve: "…its submitter cannot approve it"

T4 Match a payment PARTLY

All test receipts uploaded. They save even with no justification (Fix 6).

The amount difference is detected, but the status is picked by hand from the dropdown and Payment stays Unknown after the match (Fix 5).

Screenshot: *under Fix 5.*

T5 Amount difference PASS

Asks for a reason before sign-off. The screenshot is the review screen once approved.

Screenshot: *under Fix 6.*

T6 Card tabs PARTLY

Each tab shows the right rows, but no total (11). Statuses blend in with the rest (12).

Screenshot: *under Improve 11.*

T7 Subscriptions PASS

Monthly run rate $569, annualised $6,828 and AI & Cloud $210 all match the register.

Screenshot: *under Improve 14.*

T8 Foreign currency PARTLY

I can't see an amount for "awaiting FX conversion", only a count (7). Am I looking at the wrong page (?)

Screenshot: *Overview under Fix 1; All expenses under Fix 5.*

T9 Categories FAIL

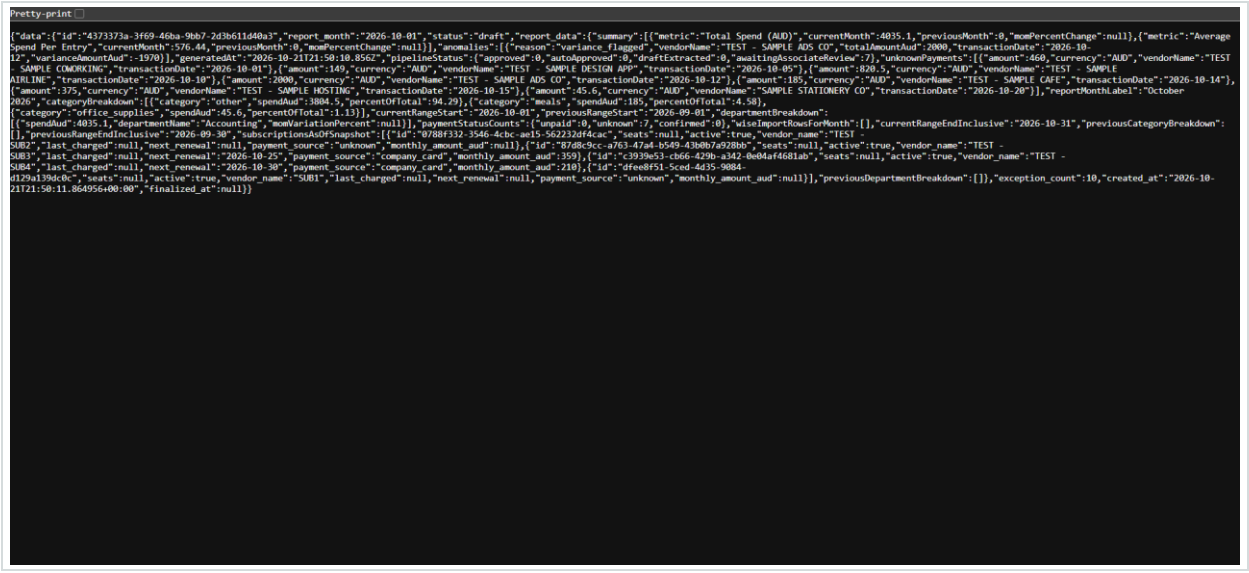

No data in Spend by category (Fix 1). Not sure if it's because the items aren't approved yet (?).

Screenshot: *under Fix 1.*

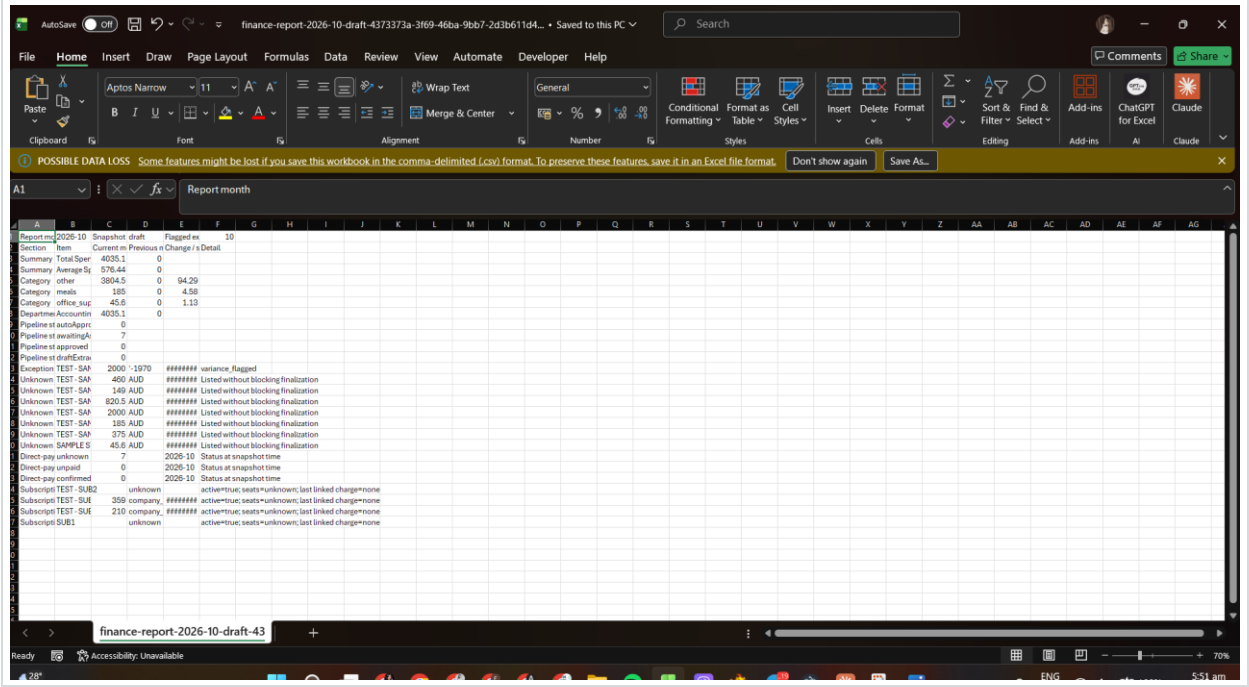

T10 Month-end report PASS

Reports › Save draft › View saved snapshot works. Download gives a CSV. Mark final stays paused.

The saved snapshot opens as raw data (JSON). A readable view would be easier for Finance (?).

View saved snapshot opens raw JSON

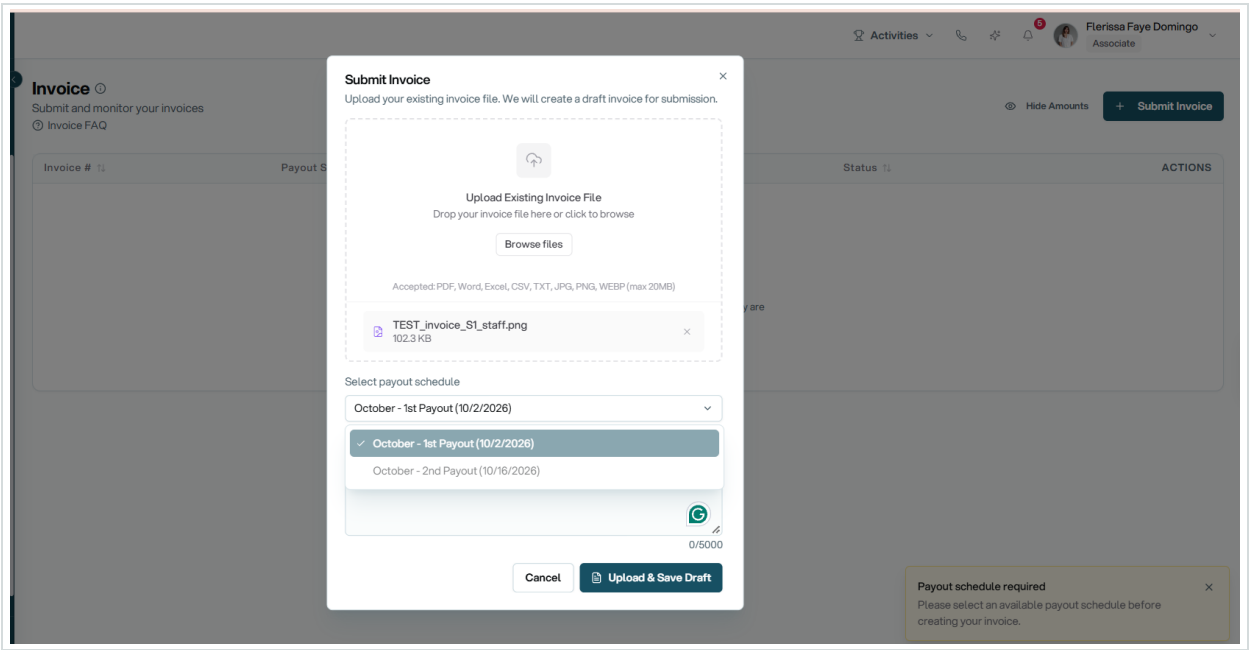

Draft CSV download, opened in Excel

T12 Staff payment NOT TESTED

Couldn't submit: the payout schedule only lists 2 Oct and 16 Oct, both past, so it says "Payout schedule required". I think submissions closed last Friday. Is that expected, or should the next payout show (?)

The admin steps (approve, Wise batch, record payment) need an admin.

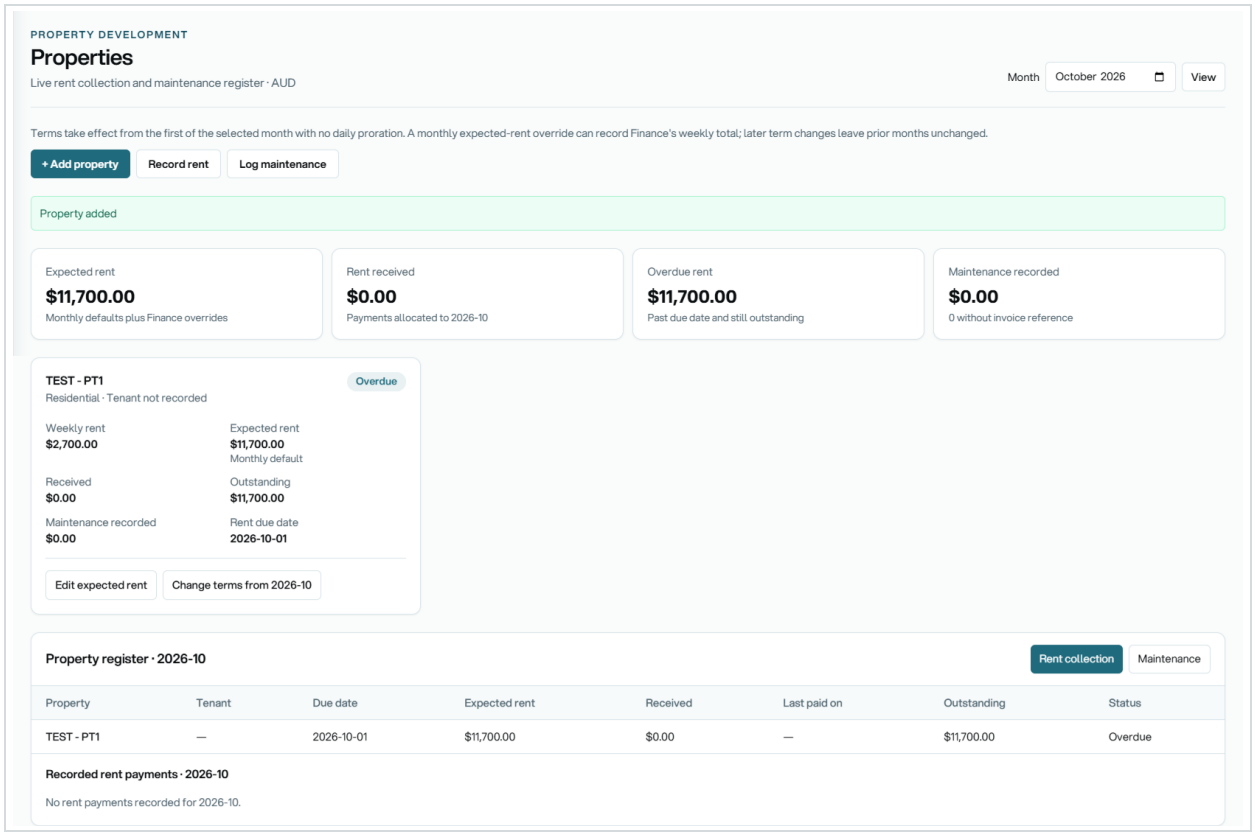

Submit Invoice: only past payout dates to choose from

T13 Rent override PASS

Property added. "Edit expected rent" sets a one-month override: PT1 shows $2,700 "Manual override" (see T16). "Change terms" applies from the selected month.

The monthly default is weekly × 52 ÷ 12 ($2,700 a week → $11,700). That matches the rule as per Tina.

The form opens at the top of the page, so I thought the site was frozen ***(Improve 16).***

TEST – PT1 added; expected rent uses the monthly default

Screenshot: *the edit forms are under Improve 16.*

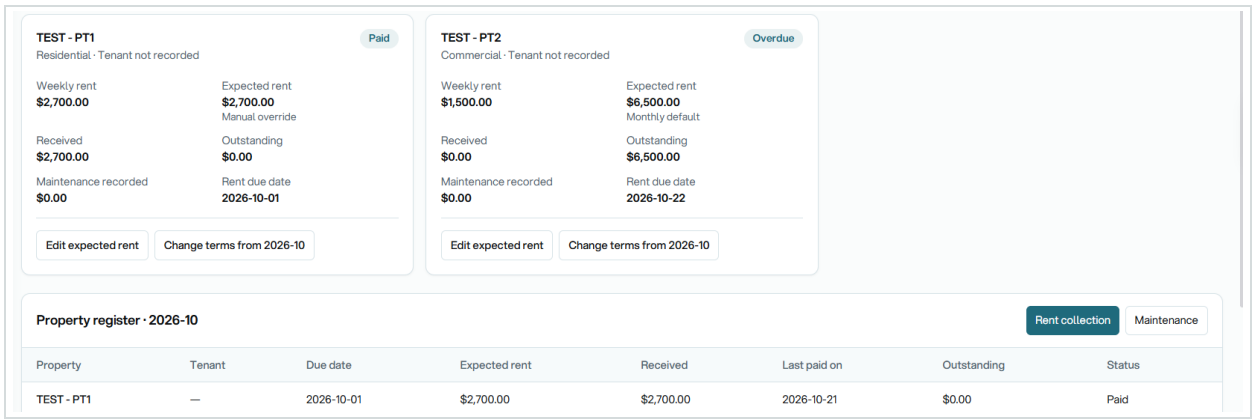

T14 Rent overdue PASS

PT2 shows Due, then Overdue after its due date. Colour-coding would make it stand out (12).

Screenshot: *under Improve 12.*

T15 Record rent PASS

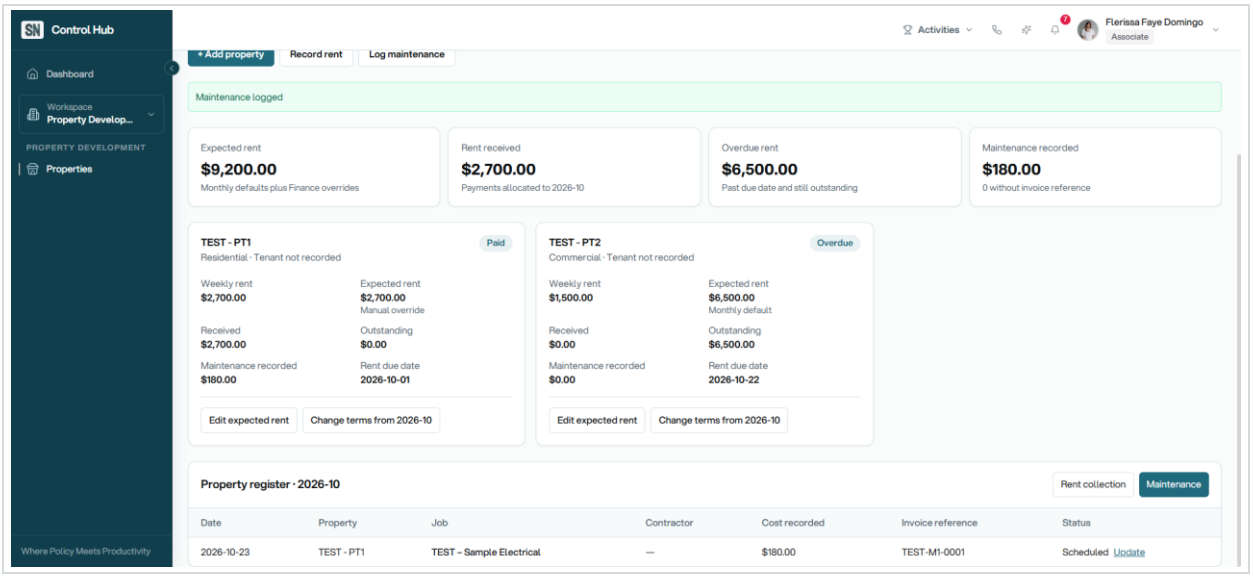

Works perfectly: $2,700 received, PT1 Paid, outstanding $0.

PT1 Paid after recording rent

T16 Maintenance with invoice PASS

Works: $180 recorded with invoice ref TEST-M1-0001 and added to PT1.

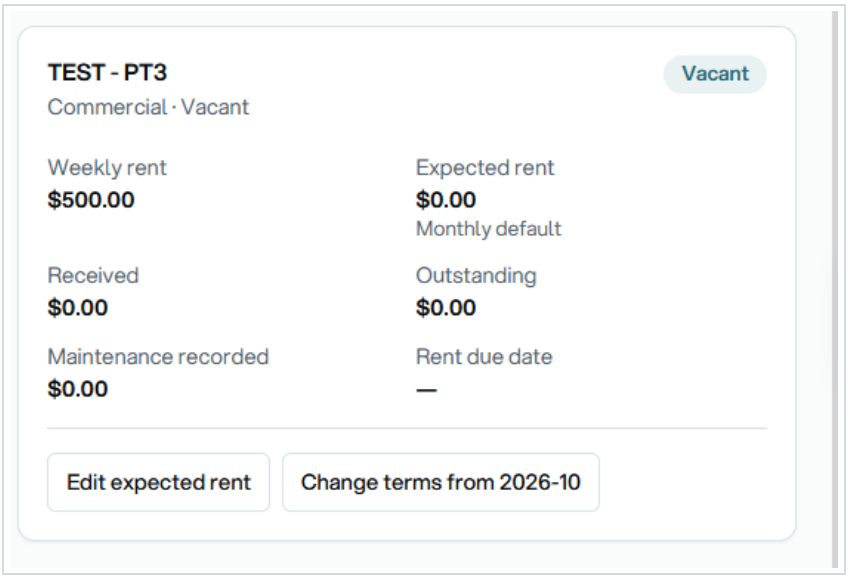

T17 Maintenance without invoice PARTLY

$220 saved with invoice ref "Not recorded". No total on the Maintenance list (11).

Screenshot: *under Improve 11.*

T19 Vacant property PASS

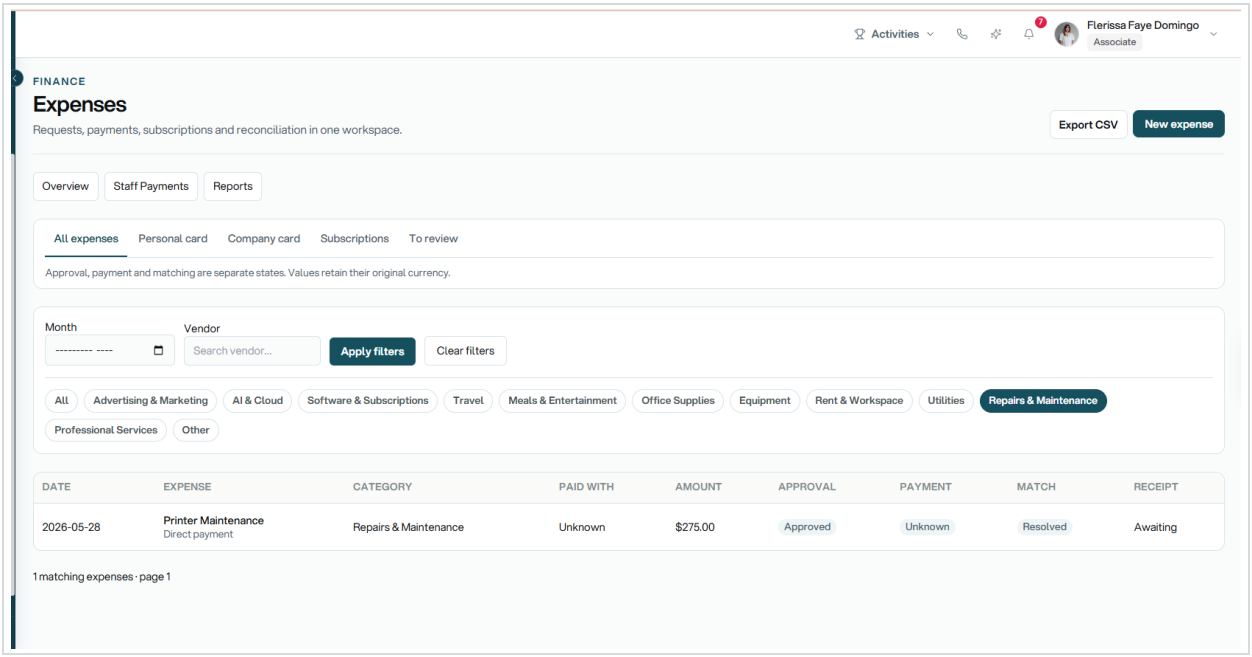

PT3 added as Vacant: expected rent $0, outstanding $0, no due date. Not counted as overdue.

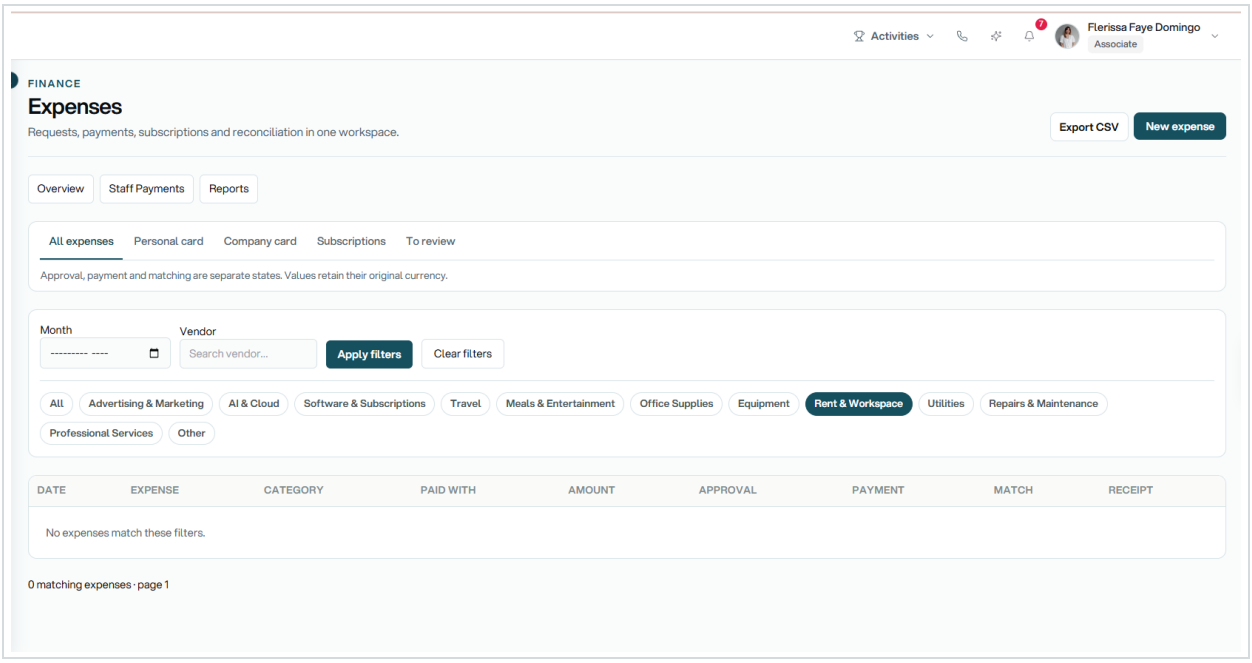

TEST – PT3, Vacant

T20 Rentals kept separate PASS

After T16–T18, Finance Expenses shows no rent or property maintenance: Repairs & Maintenance only has the May printer job, and Rent & Workspace is empty.

Finance Expenses › Repairs & Maintenance: only Printer Maintenance (May 2026)

Finance Expenses › Rent & Workspace: nothing from Property Development

On hold

Item	Placeholder for now	Who decides
What blocks "Mark final"	Paused, as now	May
Wise Business access + 2 test files (blank template, one past payout with details hidden)	No Wise testing past the batch download	May
Finance access to Staff Payments admin steps (Wise batch, record payment)	Admin only	May
Sign-off rule for amount differences	10% or $100	May
Who signs off Steven's own expenses, and whether Steven or his PAs log them	May signs off	May / Tina
Other property costs (rates, water, strata, insurance, agent fees, loans) for a full income/expense tracker	Maintenance only	Tina
SFO changes	N/A	Cef/Faye
